

ITSA IT Process

Clearing Cache from Safari Browser

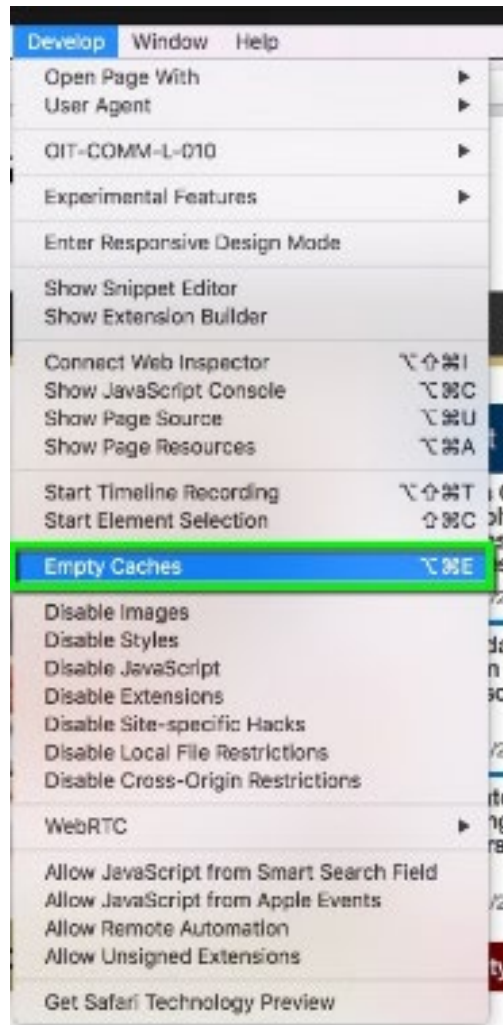

1. Click on the **Safari** drop down menu and select **Preferences**

2. Click the **Advanced** tab. Select the **Show Develop menu in menu bar** checkbox and close the Preferences window.

3. Select the **Develop** drop down menu. Click **Empty Cache**.

(Continued on next page)

4. **Note:** You may want to also clear your browser history. Select the **History** drop-down, then **Clear History**.
